

Malena Andrade

Product Designer

Summary

With over 10 years experience in software projects, I started as a front-end developer building responsive interfaces and component libraries. Leading teams and managing design execution deepened my expertise and led me into UX, design systems, and branding. Today, I am a consultant, helping startups craft scalable, user-centered design solutions.

Work Experience

- ✓ **Product Designer**
miBunker - Jan 2025 - Apr 2025 (4 months) - Ecuador Remote
 - Defined the identity and branding of the app through a collaborative branding workshop.
