

Malena Andrade

Product Designer

Summary

With over 10 years experience in software projects, I started as a front-end developer building responsive interfaces and component libraries. Leading teams and managing design execution deepened my expertise and led me into UX, design systems, and branding. Today, I am a consultant, helping startups craft scalable, user-centered design solutions.

Work Experience

- ✓ **Product Designer**
miBunker - Jan 2025 - Apr 2025 (4 months) - Ecuador Remote
 - Led the transformation of the app from ideas and user flows in Figma to prototypes in Figma, defining its identity and direction.
 - Engaged stakeholders in the branding process with a branding workshop, strengthening the connection with the company, enhancing brand alignment.
 - Developed a comprehensive branding strategy combining creativity, UX, and technical planning, creating a prototype aligned with miBunker's vision.
- ✓ **Lead UX / UI Designer**
silverorange - Jan 2020 - Feb 2023 (3 years) - Canada Remote
 - Led the design of app, marketing, and sales pages for clients such as EM:RAP, Starmaker, and Hippo Medical Education, enhancing brand alignment and user experience.
 - Developed comprehensive strategies combining creativity, UX, and technical planning, resulting in prototypes aligned with client visions using Figma and Fijam.
 - Directly communicated with clients to understand their marketing goals, leading to improved brand design, responsive design, and UI design systems.
- ✓ **Lead Front-End Developer**
silverorange - May 2015 - Feb 2021 (6 years) - Canada Remote
 - Led front-end development on major client projects including Mozilla and EM:RAP, improving project efficiency and reducing development time.
 - Collaborated with project managers to estimate tasks and milestones, enhancing team collaboration.
 - Established front-end environments, including project structure and initial style sheets, streamlining development processes.
- ✓ **Board Member**
silverorange - Mar 2018 - Feb 2023 (5 years) - Canada Remote
 - Led vision, helped with strategy planning, risk management, and decision assessment, ensuring alignment with company goals and shareholder interests.
 - Provided feedback on operational, financial, and executive domains, enhancing organizational efficiency and decision-making processes.
 - Engaged in strategic planning and governance, contributing to the development and implementation of company-wide initiatives.
